SunCoast Contractors Supply Inc.

Stocked Moulding Profiles

All of the wood moulding profiles in this catalog come from forests that are
Stewardship Council Certified.

SunCoast's primed finger joint mouldings will be either:

- Radiata White Pine
- Taeda Pine

Providing the benefits of:

- Cleaner Product
- Straighter Product
- Less Sapping
- Less Waste
- Fewer Problems

SunCoast's mouldings are kiln dry prior to milling which provides consistent:

- Product stability
- Prevents checking
- Prevents splitting.

SunCoast's proprietary LDF moulding profiles are produced domestically. **Made in the USA**

Other LDF moulding are produced in South America.

Note: SunCoast controls profile consistency by buying from the same source year after year guaranteeing your profiles will always match.
